**Sangeeta Varma**  
Training & Placement Officer

Dear Industry Partner,

It is a matter of great pride and privilege to invite you to make our students of Batch 2021-23, an integral part of your esteemed organization's growth process.

The Batch 2023 of MMS & PGDM Programme was privileged to get offline internships and undergo the real experience of industry work culture post pandemic, during their summer internship in the current academic year. It is comforting to see a boom in recruitments across various sectors of the industry. The renowned regular recruiters of SFIMAR have already started approaching us for this academic year's campus selection process. This undoubtedly speaks about the trust in the quality of the product of SFIMAR i.e. its students. We thank all our recruiters for believing in SFIMAR and strengthening the bond of trust year by year.

In the post pandemic time, the framework is changing, new market trends are emerging, and employee expectations are evolving. Accordingly, SFIMAR is focused now in enhancing and building the right competence of its students by training them in order to meet business growth needs. Student Skill Development Programme (SSDP) is the most desired offering of the institute that brings tailor-made training & add-on certifications for the students as per the industry requirements.

Observing the delay in the start of academic year for past two years, the institute has taken a well thought decision of giving certification courses of 20-30 hours duration by professionals; covering the topics most sought by the industry. This is an effort made by the institute to make its students industry ready prior to the commencement of the recruitment process of the industry.

Career Management Centre (CMC) assists recruiting partners in identifying and connecting them with the right talent while at the same time helping students in identifying and matching their interests & abilities and honing their skill sets to meet the job-specific opportunities.

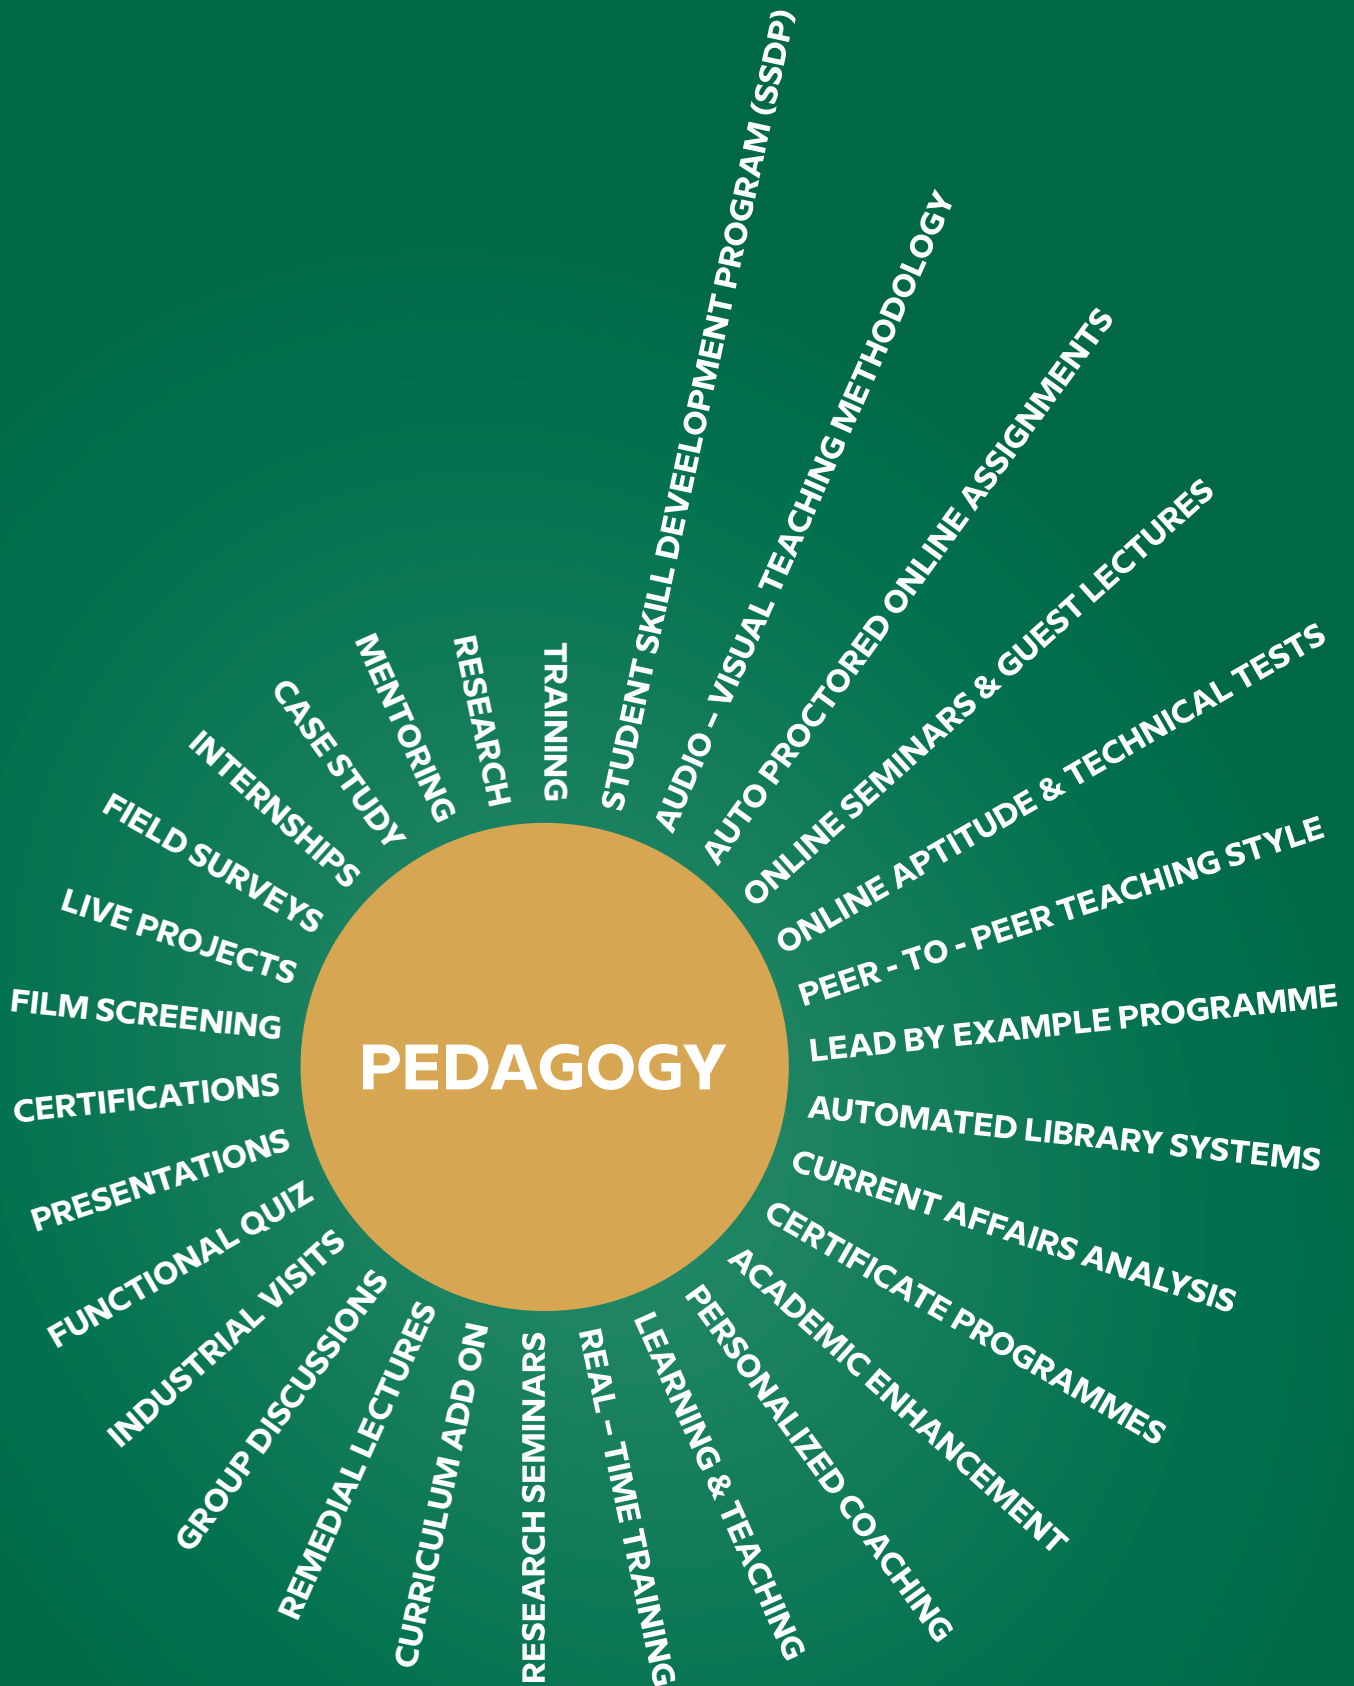

SFIMAR brings out the professionals, with a varied talent pool and leadership skills; and we trust that they are well equipped to meet the Industry expectations.

SFIMAR talent recruited today will certainly be an asset to the organization tomorrow!
