Report of Renaissance Forum Field Visit for the Academic Year 2025-26

Introduction (Subject of the Activity):

The Renaissance Forum of SFIMAR organized an **Outreach Program through a guided field visit for MMS Semester III students (HRM Specialization and Operations Specialization) on Saturday, August 23, 2025.**

Objectives:

- To familiarize the students with the HR functions at Fleet Management with a focus on Training & Development and Simulation.
- To provide practical insights into corporate-level training practices, competency development, and operational excellence.
- To enable students to connect classroom learning with live corporate practices, thereby enhancing employability skills.

Name of the Activity: Field Visit by Renaissance Forum

Date of the Activity: 23/08/2025 (Saturday) **Time:** 9.00 AM to 2.00 PM

Venue/Mode: Fleet Management Training Institute

L&T Seawoods Grand Central,
Unit 1000–1004, Level 10, Tower II, Wing E&F,
Plot R-1, Sector 40, Nerul, Navi Mumbai – 400706, Maharashtra, India.

Coordinator Names:

- 1) Prof. Paul Alukal
- 2) Prof. Rosie Murray
- 3) Prof. Mayank Dedhia
- 4) Dr. Sonali Shiralkar-Tatkar

Subject: Renaissance Forum guided field visit for MMS Semester III students

(HRM Specialization and Operations Specialization)

Number of Participants: 31 students (24 Students of HR Specialization, 7 Students of Operation specialization) & 3 Faculty members.

Methodology: The field visit commenced with an orientation by the Fleet Management Training Institute (FMTI) team, highlighting the institute's role in developing seafarers and future managers for the global shipping industry.

Trainers for the Session:

- **Capt. Viraf Chichgar** – Serving as a senior trainer at FMTI since 2012, he **specialized in navigation training and simulator-based modules**, providing students with practical exposure to real-time ship handling.
- **Mr. David D'Sylva** – With over 14 years of sailing experience, he **delivered training on ship operations and safety procedures**, bridging classroom concepts with industry practices.
- **Capt. B. P. Singh** – As a senior faculty member at FMTI, he **led training on incident analysis, risk management, and operational preparedness**, helping students understand the human and technical dimensions of maritime safety.

Key areas covered during the visit included:

- **Overview of HR Functions at FMTI** with emphasis on Training & Development practices.
- **Case Analysis of a Marine Incident** focusing on human error and technical risks.
- **Simulator Demonstrations** (Ship Bridge & Engine Room) to showcase real-time training environments.
- **Team-Building Exercise** aimed at enhancing leadership and collaboration among students.

Real-Life Case: Incident of MV *Dali* and the Francis Scott Key Bridge

As part of the field visit, a dedicated session was conducted for MMS Semester III students to discuss the REAL-LIFE CASE of the allision between MV *Dali* and the Francis Scott Key Bridge (Baltimore, USA) that occurred on 26th March 2024.

The trainers guided students through the incident, explaining how a seemingly routine departure turned into a catastrophic accident, resulting in the collapse of a major bridge. The discussion focused on:

- **Causes and Contributing Factors** – Technical failures, navigational challenges, and the role of human error in escalating the incident.
- **Risk Management Lessons** – How structured training, regular drills, and simulator-based exercises can prepare crews to respond effectively in such high-pressure situations.
- **HR & Operations Linkages** – The importance of HR interventions in competency building, fatigue management, psychological support, and continuous professional development to prevent human error.
- **Wider Impact** – Financial losses, global supply chain disruption, insurance implications, and reputational damage for shipping companies.
- **Student Reflection** – MMS students analyzed the case from both an HRM and Operations perspective, debating how corporate policies, employee training, and organizational preparedness could have altered the outcome.

The session not only gave students a chance to engage with an ongoing international case but also helped them apply their classroom knowledge to understand the real-world consequences of HR and operational lapses.

Commented [PP1]: Rosie madam was hesitant about using the name of the Carrier as that would make it clear that the discussion was about the incident in which Synergy was involved.

Outcomes:

1. Students gained practical exposure to **industry-grade simulators** used for training and competency building.
2. They understood the integration of **HR practices with safety training and operational management** in the shipping sector.
3. The visit bridged the gap between **academic learning and corporate practice**, enhancing their professional preparedness.
4. Students experienced **live corporate interactions** which enriched their HR and operational perspectives.
